

What is a Quick Quiz?

- This is a very flexible format for reviewing training material at the end of each module, session or logical break in your training program. Much like review questions at the end of each chapter in a text book, you'll be able to review a portion of your program with your trainees, but in a FAST & FUN game format.
- This application contains up to 10 separate quick Jeopardy style quiz games. Each game contains 10 questions, so 100 potential questions in all. Within each 10 question game you'll find 2 question categories each containing five questions valued at \$100 through \$500.
- The main game board is pictured on the right, and you can always get to it by clicking the round black button found on the top left corner of each slide. We'll go over it in detail next.

Let's take a look at the various game board features

The screenshot shows a software application window titled "InJeopardy Quick Quiz". The interface is divided into two main sections: a scoreboard on the left and a game board on the right.

Scoreboard: A table with 10 rows, each representing a team/player. Each row has a text input field for the name, a score field (all set to 0), and two buttons for adding (+) and subtracting (-) points.

Player/Team	Score	+	-
Team/Player 1	0	+	-
Team/Player 2	0	+	-
Team/Player 3	0	+	-
Team/Player 4	0	+	-
Team/Player 5	0	+	-
Team/Player 6	0	+	-
Team/Player 7	0	+	-
Team/Player 8	0	+	-
Team/Player 9	0	+	-
Team/Player 10	0	+	-

Below the scoreboard is a radio button selection area for game titles, numbered 1 through 10. Option 2 is selected. At the bottom of the scoreboard section are three buttons: "Reset Buttons", "Reset Scores", and "Game Setup".

Game Board: A large board with a gold border. At the top, it has two category headers: "Category 1 Title" and "Category 2 Title". Below these are two columns of five blue boxes each, representing different point values: 100, 200, 300, 400, and 500. On the right side of the board, there are three buttons: "Random Player", "Tie Breaker", and a red "Close" button.

Scoring- Player/Team Names

- You can add up to 10 team or player names by typing directly into the Player/Team names boxes.
- Scores are increased by intervals of 100 by clicking on the (+) button and decreased by 100 by clicking on the (-) button.
- You can also change a player or team score by typing directly into each score box.
- Use the Reset Scores button at the bottom to zero out all scoring. This can be done at the end of each game, or you may choose to have scores accumulate over several games.

Quick Quiz Games

- As we've mentioned, there are 10 potential Jeopardy style quick quiz games available.
- What is important to remember is that you'll need to click the "Reset Buttons" button each time you move to a new game.** We will show you how this works on the next slide.
- You can also play games containing 2, 3, 30, or even 40 questions by stringing individual games together. Keep in mind however, you'll need to play each 10 question game in sequences and reset the game board buttons after each game.
- The Game Titles are change on the Game Setup, which you'll access by clicking on the Game Setup button found on the Game Board.

1. From the Game Board, select the game you want to play. This, in turn will change the specific question slides that the value buttons will link to.

Category 1 Title	Category 2 Title
100	100
200	200
300	300
400	400
500	500

2. When you change games don't forget to press the Reset Button to show all of the value buttons for the new game.

How does it work?

3. Game 1 links to the first 10 slides (7 – 16)
 Game 2 links to the next 10 slides (17 – 26)
 Game 3 links to slides (27 – 36)
 And so on for all 10 games. Just by resetting the buttons when changing games, you can access all 100 question slides in this application.

4. Next to each question slide is a red box. This one says the question applies to Game 3, Category 1 and the \$200 button. You will always know which question you are editing.

Random Player Button

- The Random Player button is located in the bottom right hand corner of the Game Board. Clicking on the button opens the pop up box shown above. A team or player from your list of teams/players is selected. The Random Player function will only select from the names that you have listed on the game board. I.e. If you had only three teams listed (Red, Blue and Green), and deleted the default names below, this function would randomly select one of the three names each time you click on the button. Clicking again on the blue bar, which appears in the pop up, will select another team.

Tie Breaker Button

- In the event of a tie score you can use the Tie Breaker function. The button is located in the lower right hand corner of the Game Board. Click once to open the pop up and again to select a number from one to ten. Tied teams/players are asked to pick different numbers between one and ten. The closest to the number wins!
